# Macha Evidence Storage & Transport -Macha EST

A Rigr Al product

Version Number	V.1.0.6-beta	
File hash (SHA 256)		
Installer		
Date	21st July 2023	
Approve	Released	

### Introduction

We are pleased to announce the release of Macha EST V.1.0.6, a Windows desktop application developed by Rigr AI that allows for secure and convenient storage and sharing of confidential information related to cases among police officers.

### What's New

#### Documentation:

Macha EST now has a documentation site for users running the application. The documentation covers everything users need to know about using Macha EST. The

documentation can be accessed via the help option on the menu at the top left of the application or visit <u>docs.macha.rigr.ai</u>.

• Configuration:

Macha EST desktop client supports the addition of Azure app configuration.

Config

b2c_app_authority_domain	magdemeshDulagh.an		

• Keys Management:

The new release grants users more control over the key pairs for encrypting/decrypting evidence. Users can now download and store their keys, and add them back to the application, in a bid to prevent data loss.

Please Generate, <u>Download</u> ai	nd Submit your keys, and keep them safe.

VIEW ALL				

### **Bug Fixes**

• Previously, deleting a case will result in users getting logged out of Macha EST - this is no longer the case.

### Known issues

- The uploading progress bars may sometimes behave unexpectedly despite the successful evidence upload.
- Search functionality does not work at the moment.
- The application has some placeholder UI elements that do not in any way reflect the content within the cases. For example:
  - $\circ$  Lead officer
  - Status. Etc.

These will be addressed in future updates.

### How to install

To obtain the latest version of Macha EST, download and install the update from the provided URL at the head of these notes. You should first uninstall the previous version of Macha EST (formerly called Green Garnet).

## Support & Feedback

If you have any questions or require assistance, please email <u>info@rigr.ai</u> or <u>use this form to log</u> <u>a bug</u>

https://www.rigr.ai/

it will look something like this Edward DIXON , v102 is Digital

Evidence Locker, while v106 is Matcha EST
